Ivory Coast seeks LNG for FSRU

The Ivory Coast state oil and gas company Petroci is seeking LNG supplies to help meet growing gas demand in the country. Last week, it said it was looking for a minimum of 2 mtpa of LNG over a 10-year period to supply a planned floating storage and regasification unit (FSRU). Petroci is also looking for a company to structure and provide an import financing facility backed by the LNG supply and sale contract.
