# The Gas Strategies Interview: Betsy Spomer, president and CEO of Jordan Cove LNG

**Elizabeth [Betsy] Spomer is president and CEO of Jordan Cove LNG and executive vice president of Veresen Inc. The proposed 6 mtpa LNG plant, which has secured a non-FTA export license, is one of a number of US export schemes hoping to take FID next year. In June, the Federal Energy Regulatory Commission (FERC) again postponed the environmental impact review for the Oregon-based project. Gas Strategies caught up with Betsy to find out how Jordan Cove LNG is progressing, and hear her views on the future of the LNG industry and why the US is set to reign supreme.**
