Iran-Oman pipeline moves closer to EPC tender – state media

Offshore mapping and hydrography for the proposed 400 km Iran-Oman pipeline is complete, which brings the project closer to an engineering, procurement and construction (EPC) tender, Iranian state media has reported.

The National Iranian Gas Exports Company (NIGEC) plans to issue an EPC tender after seabed evaluation on the 0.5 Bcf/day (5.17 Bcm/year) pipeline is carried out, NIGEC managing director Alireza Kameli told the Shana news agency.
