OGDCL discovery adds to Pakistan gas drive

Pakistan's Oil & Gas Development Company (OGDCL) has unearthed an onshore gas discovery following the drilling of an exploration well in Sindh province, in the southeast of Pakistan.

The Chabaro-01 exploration well, drilled in association with Government Holdings Private Limited, was drilled to a depth of 3,674 metres, and flowed 15 MMcf/day of gas and 20 barrels of condensate, OGDCL said.
