SoCalGas cleared to resume limited gas injections at Aliso Canyon storage facility

Sempra Energy subsidiary Southern California Gas Company (SoCalGas) is to resume gas injection on a limited scale at its Aliso Canyon natural gas storage facility, with 40% of its wells cleared for operation.

Operations may resume only after a series of safety tests are passed, including a leak survey of the facility and a flyover to measure methane emissions at the site.

The California state government ...
