The CBM interview: Randeep Grewal, founder and chairman, Green Dragon Gas

China plans to double domestic production of coal bed methane (CBM) to 40 Bcm by 2020, as a means of meeting its COP21 carbon reduction pledge. Last year the government increased subsidies by over 50%, in the hope of kickstarting then-sluggish development. Gas Strategies speaks to Randeep Grewal, founder of Green Dragon Gas, a China-focused CBM producer, to find out whether the new support regime is bearing fruit.
