Border gas price update from GasStrategiesOnline

Oil prices averaged $113.03/bbl for Dated Brent in August. Through August prices fell from close to $140/bbl to below $110/bbl. This drop has continued into September, and for the first time in five months, prices fell below $100/bbl to as low as $87/bbl. However, prices have recently begun to rise back to above $100/bbl due to reported cuts in global production and disruption to US refineries after hurricane Gustav, as well as strong buying from investors to offset the weakening dollar.
