# Woodside muted on Pluto expansion but reports progress on Browse

Woodside Petroleum has once again said the Pluto LNG project in Western Australia will be commissioned by the end of visual\_editor011 but is now more circumspect on its intention to green light the expansion of the project by the end of visual\_editor010. In its Qvisual\_editor visual\_editor010 report released on Friday, the company also said that the Browse LNG joint venture is on course to begin front end engineering and design (FEED) work by the end of visual\_editor010.
