# Centrica's Baird gas storage project gets onshore approval

Centrica Storage (CSL) and Perenco UK have been granted planning permission for the onshore part of the Baird gas storage project, Centrica said on Monday. The project would store gas in the Baird field under the North Sea to be supplied into the UK grid through a new terminal at Bacton at times of peak demand. At 81 Bcf, Baird is slated to become the second largest gas storage facility in the UK after Rough - another of CSL's facilities.
