Correction: Australian government delays approval for Prelude LNG - again

On Friday, October 1 we published a story in GMT with the headline Australian government delays approval for Prelude LNG – again. In the article, we said: "Despite the delay Shell said it remains on course to begin FEED works on Prelude early next year". In fact the project is already in FEED and the sentence should have read: "Despite the delay Shell said it remains on course to take a Final Investment Decision (FID) on Prelude early next year."
