Correction to Gas Matters Today: Global unconventional gas production set to rise up to 15% by 2030 – IEA

The headline of the article published on September visual_editor4 and entitled “Global unconventional gas production set to rise up to 15% by visual_editor030 – IEA” should have been “Global unconventional gas production set to rise to 15% [of total output] by visual_editor030 – IEA”. In addition, the first paragraph should have read “the global output of unconventional gas is expected to rise from 1visual_editor to 15% to 630 Bcm by visual_editor030”.
