LNG Energy secures rig to drill shale gas wells in Poland

Canadian oil and gas explorer LNG Energy has said its visual_editor0%-owned Polish subsidiary Saponis Investments has signed a contract with Poland's Nafta Pila to drill the Wytowno S-1 and Lebork S-1 shale gas wells on the Slawno and Slupsk concessions in the Baltic basin in Poland. Securing drilling rigs has proved a tall order for some shale gas explorers in Poland due to a lengthy tendering process.
