Arun to reduce production to 30 LNG cargoes for 2011

As Indonesia's Aceh gas production continues to decline its Arun LNG plant is likely to produce 30 LNG cargoes, down from 39, in 2011, most of which will be exported to Japan and Korea, an Arun official told the Jakarta Post on Friday. Japan should receive four cargoes, while South Korea should receive 23 cargoes. The remaining cargoes will be distributed to domestic fertilizer company Pupuk Iskandar Muda.
