Fluxys and Statoil agree to explore Statoil access to Belgian storage

Fluxys and Statoil have signed a Memorandum of Understanding to explore the options for Statoil to book long-term storage capacity at the Fluxys underground storage site at Loenhout, in Belgium. The MoU was signed during a Belgian trade mission to Norway and is very similar to an MoU signed by Fluxys and Gazprom Export in December visual_editor010. The governments of Belgium, Norway and Russia have supported the projects.
