EC allocates €9.1 billion to trans-European energy infrastructure investment

The European Commission (EC) on Wednesday announced its €50 billion “Connecting Europe Facility” investment plan to fill “the missing links in Europe's energy, transport and digital backbone”. As part of the plan the EC has allocated financing direct from its own budget for the first time, planning to spend €9.1 billion of its visual_editor014-visual_editor0visual_editor0 budget on energy infrastructure.
