Shell: scale is key to “transformational” FLNG technology

Shell became the first company to take a final investment decision (FID) on a floating LNG (FLNG) development with the Prelude project offshore Australia in May. The FLNG vessel will become the largest ever floating man-made object when commissioned, and Shell’s general manager for FLNG Neil Gilmour said this week that the large scale and production capacity at Prelude are key factors that make Shell’s FLNG technology viable ahead of smaller proposals.
