Cove Energy starts drilling new well offshore Mozambique

Cove Energy, an 8.5% shareholder in the Anadarko-operated Offshore Area 1 in Mozambique, said on Tuesday it had started drilling its latest appraisal well on Sunday. The UK-based company said the well, known as Lagosta 2, will be completed towards late January next year. Cove also confirmed that discussions were taking place with major LNG off-takers in the Asian and European markets to take LNG from the Rovuma Basin Offshore Area 1 project.
