Anadarko's seventh Mozambique well yields the largest find to date

US-based Anadarko said on Tuesday that it has successfully completed drilling Lagosta-2, its seventh well at its Rovuma Basin block offshore Mozambique. The total gas pay makes it the largest find so far. The Lagosta-2 appraisal well encountered 777 total net feet of natural gas pay in multiple zones, and follows unprecedented success with Anadarko's Barquentine-3 well back in November.
