EXCLUSIVE: Cheniere to take Sabine Pass FID as early as March; no more long term supply deals

Cheniere Energy is planning to make a final investment decision (FID) on its Sabine Pass liquefaction plant in the US state of Louisiana as early as March, Cheniere president of supply and marketing Jean Abiteboul told Gas Matters Today in an exclusive interview on Wednesday. Sabine Pass will have an overall capacity of 18 mtpa and has now tied up 16 mtpa under long term deals, but Abiteboul said no further deals will be signed for the remaining 2 mtpa.
