# New giant gas discovery cheers Eni after tough fourth quarter

Italy's Eni on Wednesday announced a new discovery in Mozambique's Offshore Area 4. The find, at the Mamba North 1 prospect, could hold 7.5 Tcf of gas in place, bringing the total in the Mamba Complex to 30 Tcf. Eni also reported a tough fourth quarter and full year for its Gas & Power business, and said the potential for recovery "looks poor".
