Malaysia's Petronas to add ninth LNG train at Bintulu

Malaysia's state-owned Petronas said on Thursday that it would add a ninth LNG train with a capacity of 3.6 mtpa to its Bintulu LNG complex in Sarawak state, Borneo. The company has awarded a contract for the front-end engineering design (FEED) of the project to JGC Corporation and to a partnership of Chiyoda Corporation and Saipem. The new train will bring the total capacity of the LNG complex to 7.6 mtpa.
