DECC estimates show UK gas production 21% lower in 2011 than 2010

The UK Department of Energy and Climate Change (DECC) announced on Thursday that UK natural gas production was 55.4 Bcm in 2011, down 21% from the level recorded in 2010. DECC also said that last year gross imports of natural gas were greater than gross production for the first time since 1967, with LNG accounting for 47% of gas import
