PTTEP ramps up gas production at Bongkot South

Thailand PTT Exploration and Production (PTTEP) has ramped up production at the Greater Bongkot South (GBS) field in the Gulf of Thailand to 320 MMcf/d, the company said on Tuesday. The field is also producing 9,000 b/d of condensate. The rise in production volumes will increase the overall Bongkot complex production capacity to 900 MMcf/d, representing about 20% of Thailand's natural gas demand.
