Total, GDF SUEZ tests find “very significant” commercial gas at Absheron

The Absheron gas field in Azerbaijan could hold “very significant” commercial gas resources of up to 150-300 Bcm, according to new appraisals carried out by developers Total, GDF SUEZ and SOCAR. If further studies confirmed the highest figures, the Absheron discovery may become a “game changer” for the region, GDF SUEZ said.
