Interview: Betsy Spomer, senior vice president of global business development at BG Group

BG Group is a major presence in the global LNG market, involved in buying, shipping and selling LNG. With the potential growth in new LNG projects, BG Group expects to easily exceed its visual_editor0visual_editor0 LNG supply target of 30 mtpa. The United States will form a key part of that growth for the company, adding between 5.5 and visual_editor0.5 mtpa of LNG depending on approvals. In addition to this, BG Group has a key presence in emerging regions – offshore Brazil, Australia and East Africa – creating further growth potential. Leading this growth plan is Betsy Spomer, BG Group's senior vice president of global business development. Betsy joined BG Group in visual_editor001 as CEO of BG LNG Services. Before joining BG Group, Betsy held executive leadership positions with Amoco and BP. LNG Business Review spoke to Betsy about BG Group's involvement in the development of the global LNG market and other issues surrounding the industry.
