Australian resource, energy exports earnings up 12%, gas production set to double - report

Australia's resources and energy exports earnings were up 12% in 2013-14 to AUD 195 billion (USD 171 billion), according to the most recent quarterly resources and energy report by the country's Bureau of Resources and Energy Economics (BREE), which also forecasts that national gas production will more than double by 2019.
