Australia's New South Wales and Northern Territory endorse USD 1.1 billion gas link plan

The governments of Australia's New South Wales (NSW) and the Northern Territory (NT) have formally endorsed a scheme to develop a gas pipeline connecting the country's northern and eastern gas markets. The AUD 1.3 billion (USD 1.1 billion) project, which would run 1,000 km from Alice Springs to Moomba, is largely considered to be the missing link in creating a single national Australian gas market.
