# Leviathan reserves estimate jumps to 21.93 Tcf

Good news for the Leviathan partners after an independent analysis upgraded reserves at the giant Israeli gas field from 18.9 Tcf to 21.93 Tcf. The report by Netherland, Sewell and Associates boosts “best estimates” from the offshore Mediterranean discovery by 16.4%. It said the high estimate has been raised by 10% to 26.52 Tcf, while the low estimate jumps 11% to 16.58 Tcf.
