Gas Matters Today – Energy markets pricewatch (14 April 2015)

Brent May crude futures were trading up at around USD 58/barrel on Tuesday afternoon. The contract had closed at USD 57.93/barrel on Monday, up USD 0.06/barrel day-on-day. Oil prices continued to inch higher amid violence in Yemen showing growing instability in the region that has forced the force majeure closure of Total's LNG plant in that country.
