# Has South Korea lost its appetite for LNG?

In visual\_editor014, South Korea's LNG imports unexpectedly declined by 7.4% and they were down again in the first half of visual\_editor015, falling by 15.visual\_editor%. Gas Strategies looks at the reasons for the recent decline in Korea's LNG demand and considers whether it will prove to be a temporary downturn or whether it represents a fundamental change in the country's gas market.
