Japan's MOL concludes long-term charter of Uruguay FSRU

Japanese transport firm Mitsui OSK Lines (MOL) has concluded a 20-year charter with Uruguay's Gas Sayago consortium for a floating storage and regasification unit (FSRU) currently under construction in South Korea.

Commercial operations at the FSRU will be Uruguay's first LNG terminal project, were expected to start in July 2015, MOL said this week.
