Quantum leases Hoegh FSRU for Ghana LNG-to-power project

African investment firm Quantum Power has signed a preliminary lease for a floating storage regasification unit (FSRU) from Bermuda-based shipowner Hoegh LNG for deployment off the coast of Ghana.

The 20-year agreement is subject to Quantum reaching final close on its proposed Tema LNG-to-power project, as well as approval from the company board and local government, Hoegh said. Quantum could also opt to extend the lease by five years.
