Energean targeting Israeli gas demand for Karish and Tanin fields

Greece's Energean Oil & Gas needs long-term contracts for at least 3 Bcm/year in Israel's domestic market to make the offshore Karish and Tanin gas fields project work financially, CEO Mathios Rigas told Gas Matters Today this week.

Speaking on the sidelines of the European Bank for Reconstruction and Development (EBRD) 2017 Annual Meeting in Cyprus, Rigas said he is confident of reaching the sales target because the fields can meet new and existing demand at competitive prices.
