The gas demand interview: Graham Bennett, vice president of UK business development, DNV GL

Host to arguably the most effective carbon-pricing mechanism in the world, the UK is leading the way in coal-to-gas switching. Gas Matters speaks to Graham Bennett at DNV GL, one of the authors of DNV GL's annual Energy Transition Outlook (ETO) report, about the growth areas for UK gas demand, and some of the innovative solutions currently being floated to facilitate a low-carbon gas economy in the UK and some of its European counterparts.
