Renewables thrive, gas to survive as Covid-19 batters global energy demand – IEA

Renewables will thrive and natural gas will fare better than coal or oil during the coronavirus pandemic, the International Energy Agency said today, as the energy sector is battered by the biggest demand shock in more than seven decades that will dwarf the impact of the 2008 financial crisis. Global energy demand will fall by 6% – equivalent to losing the entire energy demand of India – even if ...
